

Cool Stuff Your Old Phone Can't Do

Voicemail and Fax to Email. Voicemail is a time wasting hassle. If you need to refer back to a voicemail or pass on information from a voicemail its a giant hassle. Get all these messages in your email inbox as an audio file you can play from your computer or cell phone and forward them to others for easy review or action. Same with your faxes. Get your own personal fax number as part of your phone service and have your faxes delivered right to your inbox. *Included with basic and premium stations.*

One Phone Number. Call my cell, wait no, call my office ... I mean my home number. Having a lot of phone numbers is the fastest way to frustrate the people that want to reach you. Give out one number and it rings any phone you want, cell, home, anywhere you are, all at the same time or one after another, you decide and you can change it whenever you want from your web browser. *Included with premium stations.*

Click to Dial from Salesforce, Facebook and Google Desktop. These are just a few applications our service works with. From inside the app just click-to-dial, launch conference calls, and your calls are logged inside the programs. You can use your office phone, cell phone or headset. This is really cool stuff we'd like to show you. *Included with basic and premium stations.*

Seamless Home Office. Want a home office phone with the same number as your office? Easy. Connect a Tierzero phone to your home broadband, and you'll have the same number. You can call, transfer, put people on hold just like you were in the office. You can add your home number eliminating the need for a separate home phone. Done for the day? Set your office line to do-not-disturb and spend time with friends and family. *Included with premium stations.*

Boss Secretary. Your assistant or secretary can make and receive calls on your behalf by having your phone number on her phone as well as her own number. *Included with premium stations.*

Take Your Office on the Road. Just log into your phone from a web browser and enter the number where you are at. You just made this your office phone! When you make calls it will appear as your office number, and you can even transfer calls, put people on hold, forward calls, etc. just like you were in your office. *Included with premium stations.*

No More High International Cell Phone Rates. When you make an international call from your cell phone as an extension of your office phone you will be billed at a fraction of cell international rates. *Included with premium stations.*

Manage Your Calls from Your Desktop. For the nimble footed worker this is the most efficient way to make calls, right from your desktop. Import your address book and you're off. You can see calls coming in and out, transfer, put them hold, etc. If you have a headset you don't even need a phone. Take your laptop on the road, stay connected, and avoid long distance and international charges. *Included with premium stations.*

Make Your Cell Phone Your Office Phone. Appear to others as your office phone when calling from your cell. Just like your office phone people at work can transfer calls directly to your cell phone and you can transfer calls from your cell to other office extensions. Also, all your calls from your cell phone will be logged on the system making it easy to track. *Additional charge.*

Conference Up to 15 People On-the-Fly. Conferencing from your phone is great, except when you need 4 people on the phone. Point and click from your web browser or your phone dial pad and get up to 15 people on the phone now. *Included with premium stations.*

Get the Calls You Want When You Want. Want to only get calls from your boss between 9 and 12, your buddy between 12 and 5, and your spouse and kids anytime? You control who calls you and when. Change it whenever you like from your web browser. *Included with premium stations.*

Automated Attendant and Call Routing. Press 1 for sales, 2 for accounting when sales doesn't answer route to customer service etc. Customize your phone system and call routing exactly the way you want and change it from a web browser whenever you want. *Small additional charge.*

Receptionist Console. Is there a central person that routes calls in your company? This feature makes their job a breeze. Works on the computer as a graphical representation of all the phones in the office and can route calls, start conference calls, transfer calls to voicemail or cell phones all with point and click, or the old fashion way with a bigger phone with more buttons. Comes in different sizes for different companies. *Additional charge.*

Video Phone. Down the hall or around the world have an instant face-to-face meeting with a colleague, vendor, or customer as easy as placing a call without any technical know-how. *Video phone is extra.*
